

Driver CPC Modular Periodic Training (3.5 hours)

Maintaining Road Worthiness (CRS8062/1641)

Aims and Objectives

This course will ensure delegates acquire a full understanding of the *DVSA Guide to Maintaining Road Worthiness (2014 edition)*. It outlines the maintenance procedures and systems that both the driver and operator are responsible for.

Course Content

- Key points of a good maintenance system
- Responsibilities for road worthiness
- Daily walk around checks and daily defect reporting
- Safety Inspections
- Monitoring Safety Inspections
- The Annual Test
- Operator Compliance Risk Score (OCRS)
- Operator licensing
- DVSA HGV Inspection Checks

Suitable For

This course will contribute towards compulsory DCPC periodic training required for all drivers, new and existing, who drive professionally and require a LGV licence to work. It is being conducted by a JAUPT approved training centre.

Course Duration	3.5 Hours (This module should be taken with another 3.5 hour module to gain the full 7 hour requirement for DCPC Periodic Training)
Max No. of learners	20
Location	Available at TFR Training centres across North Staffordshire
Dates	Selected Dates in July, August, September 2014
Record of hours	This module must be taken with another 3.5 hour module within the same 24 hours. On completion of the 7 hours of training, your hours will be uploaded onto the R&E database.
